

# AQUALET

DI600

# About us

---

Welcome to Maro D'Italia - first Aqualet manufacturer in Italy.

A place where exciting ideas bear fruit and our customer's preferences inspire us to find new ways to do the same things differently and come up with exciting and innovative products. Safe, hygienic and unbelievably pleasant, our products offer full satisfaction so that you can enjoy some quiet time with yourself in complete privacy and solitude. The sophisticated upscale luxury we offer has endeared us to our customers who are always on the look-out for new innovative products and designs.

# What is Aqualet

---

A bit about our washlets...

Aqualets are more convenient than traditional toilets, since they clean your private-parts with a soothing spray of water while you remain seated on the toilet. It will clean you automatically with heated water and dry you with warm air.

- With the remote controlled wash nozzle that sprays aerated warm water, it ensures you are always clean and feeling fresh.
- Our Washlet is equipped with industry leading control functions for ease of use and in case the user has mobility problems and someone else is initiating the functions of the bidet seat.

These Aqualets also come with a mounted control panel that is stationed on the seat itself, in case the remote controll batteries run out. Some of these models also come with a passive deodorizer that at all times.

# Why use it

---

For decades, we have been the industry leader in the design and manufacture of sophisticated toilets and seats. Our initiatives have raised the standard of excellence in the sanitary space since we have introduced water-efficient designs and integrated innovative technologies into our product range. And in doing so, we have redefined the idea of personal comfort and cleanliness.

We take each of the above listed points seriously to provide our customers unmatched quality and performance.

In our interactions with our customers of all backgrounds, we have found one thing in common: All customers desire a power yet not painful wash function, comfortable ergonomic seat and materials of the highest standards.

# Enjoy water cleaning

More water flow functions enable you to completely enjoy water cleaning. Break through traditional cleaning concept. More healthy, more sanitary, and more comfortable.

**Strong & gentle water flow**  
Comfortable rhythm

Rhythm of strong and gentle water flow can fully wash and massage one's skin, saves 1/2 water volume, and guarantee optimal washing effect

**Spraying water flow**  
Soft and comfortable

Spraying water flow can lighten impact of water flow. Soft water flow washes more gently and comfortably.

**Moving water flow**  
All-around washing

Fully wash ladies private parts. Water stream is wider and water flow is gentler. Provides special care in special days.

**Air-mixed water flow**  
Soft and gentle

Water flow mixed with bubbles is soft and gentle, caring for women's health and welfare.

**WASH FUNCTION**

Washing has a thorough hands-free cleaning effect. and zero touch so as to avoid secondary pollution.

**BIDET FUNCTION**

Provide ladies with special spraying function so as to be far away from cross infection. Care for ladies' health.

**MOVING MASSAGE FUNCTION**

The sprayer can move forward and backward automatically.

**STRONG & GENTLE MASSAGE FUNCTION**

Strong and gentle water flow alternate. Rhythmical massage washing.

# Full-automatic function

## INSTANT HEATING

Excellent ceramic instant heating system provides continuous water heating to meet the needs of consecutive use of several users.

## AIR+WATER CLEANING

Apply air-mixed cleaning. Water flow injected with bubbles touches skin softly and gently. Only 1/2 water volume will be enough to achieve optimal cleaning effect.

Non-water-saving straight water flow without bubbles

Effect of common water flow

Gentle and soft water flow

Injecting bubbles in the process

Comparison between common and air-mixed cleaning

## FULL-AUTOMATIC FUNCTION

Press "Auto" and the Aqualet will automatically start the complete cycle. One minute of washing with an oscillating nozzle enabled, followed by two minutes of warm air drying.

# Simple cleaning

## SELF-CLEANING NOZZLE

After cleaning, antibacterial spraying nozzle can perform automatic self-cleaning to ensure sanitary and safe use.

When new

After three-months use, still just like new.

## DETACHABLE SPRAYER

For additional hygiene and ease of cleaning, the front nozzle can be detached and thoroughly cleaned.

## SILVER NANO ANTI-BACTERIAL & ANTI-FUNGAL TECHNOLOGY

Toilet seat, sprayer and water tank are applied with the silver Nano technology. The seat effectively inhibits bacteria and the sprayed water has anti-fungal and anti-bacterial properties, preventing and healing rectal health issues.

Non-corner inner wall design for easy cleaning. No hard to reach corners or edges for ease of cleaning.

# Humanized design

## INTELLIGENT REMOTE CONTROL

Humanized intelligent remote control with several smart functions.

-  Four water temperature levels: off, low level (35°C), middle level (37°C) and high level (39°C).
-  Four air temperature levels: off, low level (40°C), middle level (45°C) and high level (50°C).
-  Four seat temperature levels: off, low level (33°C), middle level (35°C) and high level (37°C).

## 5-FOLD PROTECTION

Plug power surge protection, no-water power-off protection, water temperature, wind temperature and seat temperature overheating protection, multiple-device intelligent protection. Safety is ensured.

Plug power surge protection

No-water power-off protection

Water temperature overheating protection

Drying temperature overheating protection

Seat temperature overheating protection

## LED NIGHT LIGHT

At night, soft ledlight will illuminate the toilet bowl. You can use the toilet without turning on the light.

## INTELLIGENT POWER SAVING

After the user stands-up, intelligent power-saving mode is activated to automatically adjust temperature of toilet seat and heating up to 50% power saved.

# How to use it

1. Take a seat on the toilet as you always do. For safety the Aqualet only works when seated.

2. After you are done, press the necessary button for your need, either front cleaning for ladies (bidet) or rear cleaning (wash).

3. Press the button DRY (cleaning will automatically stop and drying starts).

4. After you feel like you are dry enough, stand up and flush the toilet. The sensor in the seat will automatically stop drying and or cleaning, the Aqualet will go into stand by-energy saving mode.

# Product description

Designed in Italy for best performance and quality.

From the comfortable, heated seat to the wireless, intuitive remote control and thinnest design our products are every bit as good as they look. Offering both gentle-cleaning and pleasant drying, our products offer maximum comfort and ultimate user-friendliness.

No wonder our customers find each visit to the toilet a relaxing, rejuvenating experience that makes them afresh once again. Once you get used to our products, you won't be able to live without them again!

# Main advantages

---

## Why our products stand out

Our ranges of Aqualets are a remarkable combination of functionality, comfort and design and have been appreciated by our customers who have displayed great enthusiasm and passion for nearly every kind of product that we have launched. Our latest ranges of Aqualets are new, improved versions of the toilet-seat where in the water and power connections are elegantly concealed.

- ✓ Antibacterial nozzle for perfect hygiene
- ✓ Soft open/close function of seat and lid
- ✓ Modern touch-sensitive remote control
- ✓ Compatible with most toilets

### Important Feature #1

Maro D'Italia DI 600 impresses with its flawless design and remarkable combination of perfect functionality and comfort. It has all advanced functions one would need in a bidet seat and can be compared with much more expensive models.

### Important Feature #2

Unlike previous models, Maro D'Italia DI 600 features an electrical cable which is neatly hidden in the middle of the toilet so it can be wired to the left or to the right side. It features a power cable fuse which prevents a short circuit.

### Important Feature #3

Another advantage of this device is the toilet seat and lid which is made of UF duroplast material. This is what makes it much more durable than the toilet seats made of PP plastic, so you can also take a seat on it without having to worry about breakage.

# High-quality cover

## DAMPING SOFT-CLOSE

Durable dual dampers ensure soft closing of sit and lid for many years to come.

## ONE-PIECE TOILET SEAT

Applied advanced integrated friction welding, make the toilet seat durable, leak-proof and perfectly sealed.

Common toilet seat has joint seam. Electric leakage and water leakage can easily occur.

Integrated friction welding is durable and sealed. Free from electric leakage and water leakage. Safe and reliable.

## DETACHABLE FOR EASE OF CLEANING

Easily slides off the mounting board for ease of access of hard to reach places.

Press the side release button to slide off.

# Di600 functions

Warm  
toilet seat

## Warm toilet seat

Heated toilet seat with several temperature settings.

Warm-air dry

## Warm air dryer

The built-in warm-air dryer completely dries you after washing. Temperature can be regulated from cold to warm.

Move  
nozzle

## Move nozzle

The position of the nozzle can be adjusted by pressing a button on the remote control.

UF cover

## UF cover

The cover is made of durable material with anti-bacterial coating.

Soft close

## Soft close

The toilet seat and lid have an integrated slow closing function.

Nano silver

## Changing water filter

The water filter filter out sand, sediment, and small particles from the water supply before they reach your bidet seat. The filters also help prevent calcium and hard water deposits from building up inside the bidet seat.

Sittable  
when closed

## Sittable when closed

The toilet cover is strong enough to carry your weight and will not break if you sit on it.

Single  
nozzle

## Single nozzle

Single Nozzle System utilizes a "one size fits all" method of cleaning for both feminine and posterior wash.

Electric

## Electric toilet seat

The toilet seat is electric and plugs into a regular outlet.

Silver-Oxid

### Mechanical water filter

Built-in permanent Ag Nano water filter, which treats the water and makes it anti-bacterial.

Nozzle self-cleaning

### Self cleaning nozzle

Nozzles are automatically cleaned before and after each use.

Eco

### Power saving

The power consumption is reduced when no one is sitting on the toilet or when no panel control button is pressed for approximately 10 minutes.

Rear wash

### Rear wash

Anal washing function.

Remote control

### Remote control

Wireless remote control panel can be mounted on the wall beside your toilet.

Bidet

### Bidet

Ladies washing function.

Night light

### Night light

The night light is designed to provide optimal light intensity for guidance without disturbing your night-time vision.

Full Auto Washing

### Full Auto Washing

An automatic preset washing function is enabled.

Air-in water

### Air in water

Because the skin in that area is more sensitive, air bubbles are added to water. Therefore the water is not rough or tough, but strong enough and pleasant.

# Best combo in town
