

Model	BAS16-A	BA16-C
Operating Time	Rear cleansing	1 Minute Max, 0.6 LPM (0.16 GPM) Self-cleaning nozzle
	Front cleansing	
	Warm Air Drying	2 Minutes
Control	Move	0
	Nozzle Position	5 Levels
	Water pressure	3 Levels
	Water Temperature	4 Levels (Off : Room temperature, L : 32°C, M : 35°C, H : 38°C)
	Air Dryer Temperature	3 Levels (L : 32°C, M : 35°C, H : 38°C)
	Heated Seat	4 Levels (Off : Room temperature, L : 31°C, M : 34°C, H : 37°C)
	Sterilization Bowl	0
Air Pump	0	X
Nozzle Cleaning	0	
Filters	MF Filter	
Power Consumption	1,050 W (Max)	
Operating Noise	37 ~ 48 dB	
Net Weight	5.3 kg (11.7 lb)	
Dimensions (W X D X H)	 494 X 534 X 150 mm (19.4 X 21.0 X 5.9 inch)	

About COWAY

Made with Coway's exceptional core technology, our highly competitive products are popular in more than 80 countries around the world. As the world's largest specialist in water filtration appliances and leading edge household well-being electronics, we have developed a product line that meets the diversified needs of global consumers through relentless research in environment-friendly products across a broad range of categories.

Increasingly recognized as a world leader in innovative household health / lifestyle technology, Coway's awards and special recognitions continue to accumulate.

Microbe-Free Sterilize Your Washroom Comfort

Advanced Sterilization Bidet - **BAS16**

coway

BAS16-A/C STERILIZATION BOWL BIDET

coway

ENJOY IMPROVED HEALTH, COMFORT, AND IMPECCABLE CLEANLINESS

These microbes breed in the toilet bowl and contaminate the air after flushing. To prevent this, the BAS-16 bidet sterilizes microbes to provide a hygienic and clean washroom environment.

ELECTROLYSIS STERILIZING CARE SYSTEM *For BAS16-A only

Chemical-free & Eco-Friendly technology sterilizes your toilet from microbes such as E. Coli, Faecalis and other microorganisms with oxidants that do not harm the environment.

The sterilizing water is generated by a simple push of the bowl sterilize button.

The sterilizing water comes out from the nozzles and is sprayed into the bowl.

The entire toilet bowl is sterilized for 15 seconds.

*** WHAT IS COWAY STERILIZATION IONIZER (CSI)?**
Coway introduces an ionized-water (Mixed Oxidants) sterilization technology to sterilize the toilet bowl without any chemicals.

COWAY STERILIZATION BIDET VS. GENERAL BIDET BAS16-A

Eliminates over 99.9% of microbes such as E. Coli, Faecalis.

SUPERIOR HYGIENE SYSTEMS Stainless Steel Twin nozzles and an anti-bacteria seat ensure daily cleanness.

Nozzle Door
The newly applied nozzle door protects the nozzle part that is the most frequently exposed to contaminants.

Detachable Nozzle Duct
The removable nozzle duct and door can easily be replaced and cleaned in a single touch.

Stainless steel twin nozzles
The hardened stainless steel prevents bacterial contamination and foreign matters from building up.

Self-cleaning nozzle
The nozzle automatically creates a spray to ensure its cleanliness before using the bidet.

Anti-bacteria Seat
Anti-bacteria seats restrict bacteria propagation to provide consistent neatness and personal comfort.

ELECTRONIC BIDET SYSTEMS Adaptable functions, ease of attachment and detachment

Air+ water stream
An air pump injects bubbles into the water stream for softer, gentler feel.

Easy detachment
With just one touch a user can remove and replace the bidet for easy cleaning.

Heated seat
The temperature control device maintains comfort.

Universal Bracket
Universal hinges attach the bidet during installation and include a one-touch hinge for convenient installation and separation.

Dry control
After the cleansing is complete, the temperature-adjustable dry air guarantees a refreshing finish.
